

On 25 – 26 of March, 2015, the 7th International Youth Conference “Modern Equipment and Technologies in Scientific Research” took place on the basis of Research Station RAS in Bishkek city. Young scientists, specialists, masters, students and postgraduate students addressed various matters from geophysics, geodynamics, informatics, economics, mining, mechanics, ecology, etc.

The Organizing Committee thanks all participants and hope for effective cooperation within future conferences.
